The time period for reply, if any, is set in the attached communication.

Response to Arguments

Applicant's Remarks	Examiner's Response
<p>"If the Examiner intended to reject claims 7 and 22, Applicants respectfully request that a formal rejection with specific citation to prior art be made in a new Non-Final Office Action so that Applicants have an opportunity to address any newly made rejections. Alternatively, Applicants respectfully request that the Examiner provide an indication of allowable subject matter for claims 7 and 22."</p>	<p>Claims 7 and 22 are allowable subject matter if rewritten in the independent claims. It was a simple typographical error made by examiner.</p>
<p>"In particular, the Lachtar reference only teaches utilizing a single industry standard wireless system with multiple base station controllers (BSC 104 and BSC 106) and base station transceiver systems (BTS 108a&b and BTS 112a&b)."</p>	<p>See first and second response made by examiner on final office action filed 8/19/2008. Examiner still maintains based on the broadest interpretation of the claim that Lachtar teaches two distinct industry systems (first and second BTS).</p>
<p>"As such, Applicants respectfully assert the Lachtar reference does not disclose, teach or even suggest power sharing between a first and a second industry</p>	<p>See above response.</p>

standard wireless system wherein the first and second industry standard wireless systems are distinct industry standard wireless systems, as recited in claims 1, 13, and 19."
